Introduction

This report provides a summarization of the graduate medical education outcomes for the Touro College of Osteopathic Medicine – Middletown campus (TouroCOM-Middletown) beginning with the Graduates of Academic Year 2017-2018 (first graduating class).

Mission Statement

The Touro College of Osteopathic Medicine is committed to training osteopathic physicians with a particular emphasis on practicing medicine in underserved communities, and to increasing the number of underrepresented minorities in medicine.

We value and support public service, research, graduate medical education, and osteopathic clinical service in the community that will strive to improve health outcomes for those we serve.

We will work to educate students through the use of the latest innovative education techniques using summative and formative measures so as to graduate qualified osteopathic physicians.

Goals

1. Graduate qualified osteopathic physicians
2. Promote the practice of medicine in underserved areas
3. Increase the number of underrepresented in medicine (URM) physicians
4. Improve health outcomes in the community through public service, research, osteopathic clinical service, and graduate medical education.

The TouroCOM Mission and Goals can be found on the TouroCOM Website: <http://tourocom.touro.edu/about-us/our-mission--vision/>

Commission on Osteopathic College Accreditation (COCA) Standards

Standard 8.3:

The COM must develop a retrospective GME Accountability Report based on information reported by the COM on the AACOM Annual Report demonstrating that the COM's mission and objectives are being met. The methods used to develop the report must be fully described and documented. The report must demonstrate the number of graduates entering GME, the positions available in the COM's affiliated OPTI, the historic percentage of match participation (AOA, NRMP, military, etc.), final placement, the number/percentage of eligible students unsuccessful in the matches, and the residency choices of its graduates.

Guideline: COMs should strive to place 100% of their graduates into GME programs and devote the necessary resources to obtain that goal.

Standard 8.5:

The COM must annually report publicly, beginning with the 2013-2014 academic year, from the previous four academic years, the following data (a. and b. below) on its website, in its catalog, and in all COM promotional publications that provide information about the COM's education for prospective students. The COM may use a reference to this data as to where it can be found on the COM's website.

- a. The number of students from each graduating class who applied to and obtained or were offered placement in a graduate medical education program accredited by the American Osteopathic Association or the Accreditation Council for Graduate Medical Education or the military, and the number of students from each graduating class who applied to and were unable to obtain placement in an accredited graduate medical program.
- b. The first time pass rate of its graduates on the COMLEX-USA Level 3 exam. (The COMLEX-USA Level 3 examination first time pass rates are reported as an aggregate score to all COMs for a single year period. This is the value that is to be published by the COM.)

Methodology

The number of graduates is inclusive of all students that have met the requirements of graduation and are deemed eligible to participate in Graduate Medical Education (GME) by the COM and as approved by the Registrar. The cohort of graduates is defined as those that meet the graduation requirements during the academic year (AY) running from July 1 to June 30 of the given academic year.

The number of graduates not seeking GME is inclusive of those students who did not participate in the match process (either through the AOA or NRMP).

Final placement numbers are as issued from the match reports provided by each match system (the AOA, NRMP, Military, and Other). Match placements are inclusive of those occurring during the given academic year as well as those occurring in subsequent match years. The final match rate is calculated by dividing the number of successfully placed students by the number seeking GME.

Residency positions available in the NYCOMEC OPTI are as reported on the OPTI website www.nycomec.org.

The list of matched programs is provided alphabetically by specialty for the Graduates of Academic Year 2017-2018.

TouroCOM-Middletown Summary Match Statistics

Graduates AY 2017-18	
# of Graduates	118
# Not seeking GME	1
# Seeking GME	117
AOA Match	45
NRMP Match	65
Military	3
Other Match	1
# Unmatched	3
Final Match Rate	97.4%

Residencies, Internships, and Fellowships in the NYCOMEC OPTI

TouroCOM is a member of the Osteopathic Postdoctoral Training Institution (OPTI) – the New York Colleges of Osteopathic Medical Education Consortium (NYCOMEC). NYCOMEC is an educational consortium whose membership includes hospitals, skilled-nursing facilities, ambulatory care centers and four medical school sites. NYCOMEC’s services range from full oversight and support of GME programs to select services that augment curriculum and ensure faculty reach their maximum potential.

Available GME positions within the NYCOMEC network can be found within each of the programs listed below under their designated specialties; each specialty is linked to a page with more detailed information for prospective students. Additional information about NYCOMEC, its programs, and how its supports GME can be found at www.nycomec.org.
